

Let's
Grow!

Job description

Apiculture

INDUSTRY OVERVIEW:

Honey is highly valued all over the world. The New Zealand honey and beekeeping industry is growing rapidly into a major contributor to our economy, with thousands of registered beekeepers all over the country.

JOB OVERVIEW:

With plenty of ways to become involved in the apiculture industry, from having your own hives to working for small or large scale commercial operation, from Junior Beekeeper to Team Leader you'll find a rewarding career in Apiculture if you enjoy working outdoors and have a passion for bees.

SKILLS & EXPERIENCE:

- Be physically fit as some heavy lifting required (moving or harvesting hives)
- Eager to learn and train while you work – to build your skills and knowledge of bee keeping.
- To be comfortable around bees.
- Able to work with others to achieve team goals.
- Enjoy working outdoors.
- Able to work independently or as part of a team.
- Able / eligible to work in NZ and pass a drug test.

If you are interested in beekeeping and would like to learn all aspects of apiculture, then this could be the role for you.
