

Let's 
Grow!

Job description

Arboriculture

INDUSTRY OVERVIEW:

Arboriculture is all about working with trees in a residential environment – from pruning and transplanting to felling and removal. Whether it's for private clients or government departments, trees always need care and maintenance.

JOB OVERVIEW:

In this role you will be part of a team learning to identify, climb, prune, fell and remove trees. If you like being outdoors, are comfortable with heights, physically fit and enjoy the satisfaction of a hard day's work, you couldn't find a more fulfilling career.

An Arborist role is an excellent opportunity to be employed in a position that is varied, exciting and rewarding, as well working and training with an existing team of skilled people that will give you lots of development opportunities to grow into.

SKILLS & EXPERIENCE:

- Enjoy physical labour and the satisfaction of putting in a hard day's work.
- Be able to plan, follow instructions and deliver.
- Excellent communication skills.
- Passion for working outdoors and comfortable with heights.
- Understand Health and Safety practices.
- Class 2 Drivers Licence would be advantageous.
- Are able / eligible to work in NZ.
- Eager to learn and train while you work.
- Able to work independently or as part of a team.
- Are agile and enjoy a variety of challenges.
